#### **Access to Confidential Business Information by Contractor; Extension of Contract; Illinois Environmental Protection Agency**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** EPA is extending the contract and access to confidential business information of Illinois Environmental Protection Agency (Contract Number 68-W5-0039). Access to confidential business information is extended until May 31, 1996.

#### **FOR FURTHER INFORMATION CONTACT:**

Susan B. Hazen, Director, Environmental Assistance Division (7408), Office of Pollution Prevention and Toxics, Environmental Protection Agency, Rm. E-545, 401 M St., SW., Washington, DC 20460, (202) 554-1404, TDD: (202) 554-0551, e-mail: TSCA-Hotline@epamail.epa.gov.

**SUPPLEMENTARY INFORMATION:** In the fall of 1995, Illinois Environmental Protection Agency (Contract number 68-W5-0039), was retained as an EPA contractor to review information directed to EPA under the authority of the Toxic Substances Control Act, including confidential business information (CBI) and determine the value of such information to their

respective toxics programs. By the terms of the contract, and the previous extension which published in the Federal Register of January 29, 1996 (60 FR 2822), access to CBI would end by the end of March, and a contract product would be due soon thereafter.

The Illinois Environmental Protection Agency's review has been more detailed than originally contemplated and the responsibilities placed on CBI cleared personnel have been more detailed than originally expected. As a result, Illinois Environmental Protection Agency has requested an extension to review CBI data and adequately address the requirements of the contract.

The Agency has determined that access to TSCA CBI should be extended until May 31, 1996, to insure that the Illinois Environmental Protection Agency has sufficient time to address the issue of the utility of TSCA data to state programs. Additional information may be secured from Scott Sherlock, the EPA staffer assigned to this project, at (202) 260-1536; e-mail: [sherlock.scott@epamail.epa.gov](mailto:sherlock.scott@epamail.epa.gov).
